

In the history of our church, we have never held a venue of any type where we had the opportunity to interact with so many unchurched in our community as with our block party. In just four short hours, we connected with nearly a thousand people from our immediate area. Many of these folks were touched that a church would offer so much to their families at absolutely no cost to them. Hosting a block party was one of the best outreach projects we have ever done. I would strongly encourage every church to schedule a block party for their community. Bro. Oliver was extremely helpful in preparing us for this event, and he assisted us throughout the day. What a wonderful ministry he is providing to pastors and churches!
